

Managing Staff with KeepnTrack

As an administrator, do you have accurate records on the activities of each member of your schools staff?
Are you prepared for an emergency when at a moments notice you quickly need to identify where various members of your staff are?

KeepnTrack staff capabilities offer:

- Fast & automated sign-in & sign-out for all employees and staff. Easily and quickly manage staff coming in and out of your facility.
- Provides a quick view report of who's on campus and who's not, and historical records that include days worked, hours in the building, late arrivals, early departures, and more. Find and report staff data that is critical to see.
- Excellent tool for managing mobile staff that cover several facilities. If employees work at multiple locations, know exactly where they are at any given time.
- Records are stored off-site, insuring integrity and availability of data under any circumstance. Feel confident and comfortable that your records are safe.
- KeepnTrack is surprisingly affordable, easy to use and install, and requires minimal hardware.
